ABOUT ME

Computer Science student specializing in Full stack development. Experienced in building scalable web applications and delivering production-ready solutions.

SKILLS

- **Languages:** C++, C, JavaScript, TypeScript
- **Frontend:** React.js, Next.js, Tailwind CSS
- **Backend:** Express.js, JWT Authentication, Node.js, REST APIs
- **Databases:** MongoDB, MySQL
- **Tools & Platforms:** Git, GitHub, Postman, Vercel, Render

PROJECTS

Zyvora – Full-stack online retail platform

 [Code](#) | [Live](#)

- Built a full-stack retail platform with admin portal, order management, and AWS deployment.
- Engineered Redis caching and rate-limiting architecture, cutting API latency by 40% and optimizing query throughput.
- Implemented secure payments via Razorpay with RBAC, order tracking, and automated invoice generation.

DocuMind – Document Intelligence Platform

 [Code](#) | [Live](#)

- Built a RAG-based PDF Q&A platform using Gemini, ChromaDB, Voyage AI embeddings, and LangChain for document-grounded answers.
- Implemented secure document workflows with Google OAuth, JWT HTTP-only cookies, PDF processing, and REST APIs using Express.js and MongoDB.
- Enhanced reliability and accuracy with page-level source citations, intelligent text chunking, Helmet security, and API rate limiting.

AI ResumePro – Smart Resume Analyzer

 [Code](#) | [Live](#)

- Developed a full-stack analyzer that processes resumes, providing AI-driven feedback across 5+ categories including strength analysis and role-tailoring.
- Implemented a scoring algorithm that calculates a shortlisting probability (0-100%) based on keyword density and job description alignment.
- Automated resume tailoring with a dynamic generator, significantly reducing manual customization effort.

EXPERIENCE

GS3 Solutions LLC | Freelance Frontend Developer | May 2025 – Jun 2025

Delivered client-facing marketing sites and landing pages on schedule using React and Tailwind CSS..

ACCOMPLISHMENTS

Finalist – HackNITR 7.0 (NIT Rourkela)

Selected among top teams at a national-level hackathon building innovative tech solutions.

EDUCATION

Bachelor of Technology in Computer Science and Engineering | 2024-2028

Haldia Institute of Technology CGPA : 8.8/10 (2nd year)

Relevant Coursework: DSA, OOPS, DBMS
